Biologize the Design Question Student Notes

Directions

As you view the Biologize the Question Presentation, use the following questions to organize and summarize your learning. Wherever possible, record definitions and explanations in your own words.

1. What step in the biomimicry process makes it possible to begin looking to nature for design ideas?

2. Define "function."

3. Define "strategy."

NAME: _____ DATE: _____ CLASS: _____

Biologize the Design Question Student Notes, continued

4. Why are function and strategy important in biomimicry?

5. Define “context.”

6. Explain why it is important to consider context when looking for strategies.
